Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Doctor Lederberg:

We have been in the process of expanding certain phases of the experimental program at the Naval Biological Laboratory, one of which deals with microbial genetics. Do you happen to have in your group a young person who has recently completed work for the Ph. D. degree and who might be interested in a position with us? I should add that the position entails full time devoted to research and that there is a good prospect of obtaining permission to publish the results. We are hoping to find someone who can join our group by September of this year.

With kindest personal regards, I am

Sincerely yours,

A. P. Krueger, M.D.
Chairman
